

Pot Magnets

FERRITE LIMPET POTS

Ferrite Limpet Pots offer High Performance and Low Profile. The Ferrite magnet gives a superior hold on uneven or dirty surfaces with an operating temperature up to 180 Deg C.

Material Types:

Ferrite - Corrosion Free - Long Lifecycle - Operate up to 180 Deg C - Low Cost.

Coating Types:

Painted - Historically these magnets have typically been painted Red along with the majority of Alnico magnets. This offers enhanced protection to surface corrosion but is mainly aesthical.

Application:

Perfect for semi-permanent applications such as holding doors and gates, hanging applications etc...

DATA SHEET

Image	Part #	Diameter	Depth	Mounting Type	Hole Diameter	Hole Type	Pull (Kgs)	Coating	Material
	MAG890	46 mm	11 mm	Internal Threaded Mounting	M6	Tapped	6 Kgs	Painted	Ferrite
	MAG891	55 mm	11 mm	Internal Threaded Mounting	M6	Tapped	16 Kgs	Painted	Ferrite
	MAG892	66 mm	11 mm	Internal Threaded Mounting	M6	Tapped	25 Kgs	Painted	Ferrite
	MAG896	76 mm	12.5 mm	Internal Threaded Mounting	M6	Tapped	33 Kgs	Painted	Ferrite
	MAG897	100 mm	15 mm	Internal Threaded Mounting	M6	Tapped	55 Kgs	Painted	Ferrite
